

**BHA** **medical**  
Your health, in your hands.

# Introduction

We are excited to introduce BHA Medical, a leading healthcare solutions provider that operates across multiple markets and geographies. At BHA Medical, we fundamentally care about our clients and their specific needs in this ever-changing landscape, and our level of service represents this as we consistently go above and beyond our client's expectations.

Our commitment to providing innovative solutions through the sourcing and distribution of technology, products, and services in Health and Wellness ensures that everyone has access to quality, affordable, convenient, and accessible healthcare. We believe that by working with retailers like you, we can make a real difference in people's lives by providing them with the health and wellness products and services they need.

We are proud to say that BHA Medical was the first test provider in the UK to provide tests for major retailers during the covid-19 outbreak in early 2020. We are pleased to have been able to assist retailers such as yourself in providing essential testing services to the public during these challenging times. This is just one example of our commitment to working with our partners to provide innovative solutions that meet the needs of our clients and their customers. We are a joint venture partner with Newfoundland Diagnostics, which was first to market with Tesco in providing multiple self-tests to their shoppers, across the spectrum of testing for Vitamin-D, Iron, PSA levels and menopause, to name a few. ([View the Independent News Article here](#))

We believe that BHA Medical's experience and expertise make us an ideal partner for retailers like you who are committed to providing their customers with the best possible healthcare products and services. We look forward to the opportunity to work with you and to explore how we can help you to achieve your goals.

**Thank you for considering BHA Medical as a partner in your healthcare solutions.**

# About us

BHA Medical is a leading healthcare solutions provider that operates across multiple markets and geographies. We fundamentally care about our clients and their specific needs in this ever-changing landscape, and our level of service represents this as we consistently go above and beyond our client's expectations.

We commit to providing innovative solutions through the sourcing and distribution of technology, products and services in Health and Wellness to make sure everyone has access to quality, affordable, convenient, and accessible healthcare.

## Testing

Self-testing at home is now widely accepted. The COVID-19 pandemic resulted in the need for rapid and widespread community screening and testing, particularly using Lateral Flow Tests. The UK population very quickly became used to regular testing at home.

Self-testing technology has developed exponentially and is now extremely accurate, with test sensitivities and specificities both high enough to be accepted by health regulatory authorities. It is also cheap enough to allow for regular interval testing meaning that when a positive test is identified, an individual can rapidly seek medical attention and access quicker treatment curbing the spread of an infectious virus and potentially saving lives. Self-testing is now an accepted part of an individual's healthcare check and will increase exponentially in the years to come, with new tests being available for a wider spectrum of diseases / alignments all the time.

## Approved / Registered Test Kits

Our medical test kits have undergone rigorous testing and have been approved and registered by the Regulatory Authority Bodies. This includes being approved by the UK Government, registered with the Medicines and Healthcare Regulatory Agency (MHRA), CE marked, and ISO 13485 certified. In addition, some of our test kits may have additional approvals, which are clearly noted on each product. You can trust that our test kits meet the highest standards of safety and effectiveness.

# Fertility

## Male Fertility Test

The Male Fertility Test, also known as an Acrosomal Protein SP-10 Male Fertility test, allows you to retrieve an estimated sperm concentration, used for diagnosing male infertility.

**Certifications:** MHRA

**Accuracy:**  
98%

**Test Type:**  
Self-Test

**Result Time:**  
5 Minutes

**Specimen:**  
Semen

## Pregnancy Test

The pregnancy test, also known as an hCG Pregnancy Test helps you to establish if you are pregnant or not. This test detects the hormone human chorionic gonadotropin (hCG) in your body.

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Self-Test

**Result Time:**  
3 Minutes

**Specimen:**  
Urine

## Menopause Test

The Menopause test, also known as Follicle-Stimulating Hormone (FSH) test allows you to check the levels of follicle-stimulating hormone (FSH) within your urine to help you determine the onset of menopause or perimenopause.

**Certifications:** MHRA

**Accuracy:**  
99.6%

**Test Type:**  
Self-Test

**Result Time:**  
3 Minutes

**Specimen:**  
Urine

## Ovulation Test

The Ovulation test, also known as a Luteinizing Hormone (LH) Ovulation test is used by women to help them determine the time in their menstrual cycle, which assists women whilst trying to fall pregnant. The test detects a rise in luteinizing hormone (LH) in the urine which signals that the ovary is ready to release the egg.

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Self-Test

**Result Time:**  
3 Minutes

**Specimen:**  
Urine

# General Health

## Thyroid Test

The thyroid test, also known as a Thyroid Stimulating Hormone (TSH) test detects human thyroid stimulating hormone (TSH) in your blood which assists in diagnosing hypothyroidism.

**Certifications:** MHRA

**Accuracy:**  
Over 98.2%

**Test Type:**  
Self-Test

**Result Time:**  
10 Minutes

**Specimen:**  
Finger-prick  
(blood)

## Iron Deficiency Test

The iron deficiency test, also known as a Ferritin test allows you to identify if you have an iron deficiency and if you have iron deficiency anaemia.

**Certifications:** MHRA

**Accuracy:**  
Over 95%

**Test Type:**  
Self-Test

**Result Time:**  
5 Minutes

**Specimen:**  
Finger-prick  
(blood)

## Kidney Health Test

The Kidney Health test is also known as a Microalbuminuria (MAU) test. This is a self-test that detects the levels of albuminuria in urine and is used as a supplementary method in the diagnosis of chronic kidney injury (CKI).

**Certifications:** MHRA

**Accuracy:**  
Over 98%

**Test Type:**  
Self-Test

**Result Time:**  
3 Minutes

**Specimen:**  
Urine

## Stomach Ulcer Test

The Stomach Ulcer test, also known as Helicobacter pylori (H.pylori) detects H.pylori antigens within your body. H.pylori is a small bacterium which plays a role in ulcers.

**Certifications:** MHRA

**Accuracy:**  
Over 97%

**Test Type:**  
Self-Test

**Result Time:**  
10 Minutes

**Specimen:**  
Urine

## Drugs & Alcohol Test

The Drugs and Alcohol test detects common drugs of abuse in the saliva including; amphetamine, cocaine, opiates, marijuana (THC), benzodiazepines, ketamine, and alcohol.

**Certifications:** MHRA

**Accuracy:**  
Over 98%

**Test Type:**  
Self-Test

**Result Time:**  
<10 Minutes

**Specimen:**  
Saliva

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Self-Test

**Result Time:**  
10 Minutes

**Specimen:**  
Finger-prick  
(blood)

# Infectious Diseases

## Malaria Test

The Malaria (Malaria P.f./P.v./Pan) test is a lateral flow test for the qualitative detection of four kinds of circulating proteins ((P. falciparum (P.f.), P. vivax (P.v.), P. ovale (P.o.), and P. malariae (P.m.)) using the whole blood sampling method.

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Professional-use

**Result Time:**  
10 Minutes

**Specimen:**  
Whole Blood

**Certifications:** MHRA

**Accuracy:**  
Over 98%

**Test Type:**  
Professional-use

**Result Time:**  
15 Minutes

**Specimen:**  
Whole Blood

## FlowFlex COVID-19 Test

The Flowflex SARS CoV-2 Antigen rapid test is a self-test used for the detection of SARS-CoV-2 antigens in anterior nasal specimens.

**Certifications:** MHRA | CDTA | FDA

**Accuracy:**  
Over 98.7%

**Test Type:**  
Self-Test

**Result Time:**  
15 Minutes

**Specimen:**  
Nasal Swab

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Self-Test

**Result Time:**  
15 Minutes

**Specimen:**  
Nasal Swab

# Sexual Health

## Chlamydia Test

The Male Fertility Test, also known as an Acrosomal Protein SP-10 Male Fertility test, allows you to retrieve an estimated sperm concentration, used for diagnosing male infertility.

**Certifications:** MHRA

**Accuracy:**  
Over 97.9%

**Test Type:**  
Professional-use

**Result Time:**  
10 Minutes

**Specimen:**  
Swab / Urine

# Tumour Markers

## Bowel Health Test

The Bowel Health Test , also known as Fecal Occult Blood (FOB) test is a simple home test kit enabling you to reliably detect human occult blood in faeces aiding you in the diagnosis of bowel cancer.

**Certifications:** MHRA

**Accuracy:**  
Over 99%

**Test Type:**  
Self-Test

**Result Time:**  
5 Minutes

**Specimen:**  
Stool

**Certifications:** MHRA

**Accuracy:**  
Over 98%

**Test Type:**  
Professional-use

**Result Time:**  
5 Minutes

**Specimen:**  
Whole blood /  
Serum / Plasma

# Coming Soon...

Get ready to take charge of your health with our brand new self-tests, coming soon! Our range of self-tests is expanding to offer you an even more convenient and reliable way to monitor your health quickly and easily from the comfort of your own home.

With no need for a doctor's appointment or lab visit, our self-tests provide a hassle-free way to prioritize your health.

# Global iMed Mobile App

**An end-to-end disease management solution, making it easy to verify and monitor your health at home or in the workplace.**

Global iMed is an end-to-end disease and health and wellness management system that offers both B2B and B2C testing solutions for businesses and individuals.

## **Business-to-Business (B2B)**

The B2B solution allows businesses to capture test results on an easy-to-use platform and report them systematically to health authorities.

## **Business-to-Customer (B2C)**

B2C solution enables individuals to perform self-tests and use the Global iMed app for self-verification.

## **The app comes with a host of benefits, including:**

- Automated integration with health reporting authorities
- Displaying certificates
- Alerts and notifications
- Time-based test results
- QR code generation for gatekeeper checks

Global iMed is a leading solution for verifying, managing and monitoring diseases and health and wellness, making it an invaluable tool for anyone looking to stay on top of their health.

New tests are continuously being added for use with Global iMed.
